

You can offer equipment-leasing solutions to your Canadian customers...

Mosaic International partners with equipment vendors and lease brokers from the United States and Canada to provide leasing solutions for Canadian lease requests.

Our leasing programs have Canada-wide capabilities offering leasing to small and large businesses as well as municipal and federal government entities.

Whether you need a lease on a single transaction, or multiple transactions to any number of customers, our leasing professionals will work with you to develop a leasing solution for your situation.

Leasing Brokers

Mosaic International receives a large portion of its Canadian lease requests from the equipment leasing broker community.

As members of the NAELB, we understand that your vendor relationships are vital to the success of your business. By partnering with Mosaic International, you'll be able to offer another sales tool to your vendors who have customers in Canada. Our broker agreements ensure that you will remain the primary contact for your vendors throughout the transaction.

U.S. and Canadian Equipment Vendors can utilize our leasing programs to expand their markets across the U.S./Canada border. These specialized cross-border leasing programs were developed to provide lease financing for the equipment you sell to, from and within Canada.

VENDOR ASSISTANCE

Mosaic International Corporation will handle all aspects of the lease. We will provide your company with preferred pricing and payment terms to offer your customers. We will take care of all the credit investigations, approvals, and all necessary paperwork. This allows you to concentrate on sales.

We also have equipment leasing programs for federal agencies and municipalities in the United States and Canada as well as American Indian Tribes.

Our leasing professionals can customize a private label program for your company. Documents are designed to complement your existing corporate identity.
